

## Winlink Wednesday Net Report and Roster for 7 August 2024 (Episode #413)

# Winlink Wednesday

Greetings,

Our next net will be held on Wednesday, 14 August 2024. I will distribute a reminder on Tuesday. Please read it carefully. KN4LQN WILL BE PRIMARY NET CONTROL.

The current week's net report and roster is now available at:

<https://winlinkwednesday.net>

The interactive map of the current week's participants is available at:

<https://winlinkwednesday.net/WWcurrentmap>

### SUBNET RESULTS:

Winlink Wednesday Local HF/VHF P2P Subnet results:

Blue Ridge (NCS: Wayne, KM4YC, Fauquier County, VA): 12 participants, including NCS.

Central VA (NCS: Dave, W4IIA [as W4IIA-2], Henrico County, VA): 13 participants, including NCS.

Hampton Roads (NCS: Frank, KN4DUF, Virginia Beach City, VA)

Regional Hospitals: 9 participants, including NCS.

If you would like to participate in any of these subnets, contact the NCS directly. If you would like to host a Winlink Wednesday VHF/HF P2P Subnet in your area, contact me for details on how to get started.

### NET NOTES:

1.) Yesterday Winlink Wednesday received 953 total messages from 699 unique participants worldwide, including 179 Virginia stations.

2.) There were 52 P2P connections during the morning session, and 146 P2P connections during the evening session.

3.) Russell (AB4QQ) and Joe (K8JWL) earned their Winlink Wednesday Century Club (WWCC) certificates this week, signifying 100 weeks of participation. Russell and Joe will be issued WWCC certificates #338 and #339. Congratulations to Russell and Joe on this milestone achievement!

4.) There were THIRTEEN new stations. Welcome to Steve (W7DTH), Guy (KQ4LOI), Michael (KD4RZV), Jordan (KJ5EHN), Danie (ZS1OSS), HAMNET Western Cape (ZS1DCC), John (SV1QER), Ron (K5IDL), Mark (KQ4TEL), Cliff (K4JIP), Mike (W4MTJ), Derek (KN4VYL), and Grant (ZS1GRC).

5.) Four messages were rejected as check-in because they were early, late, included misspelled call signs, or included an attachment of some sort. If your check-in is not shown in the check-in list or on this week's map, yours might be one of the messages that were rejected for not following instructions. See: <https://winlinkwednesday.net/wwchanges10.html>

6.) P2P check-ins are identified below by a leading asterisk (\*). Lowercase "o" (o) indicates a check-in from outside of Virginia. Square brackets [xxx] indicate notes by net control. Circumflex (^) indicates a check-in using

Telnet, which does not count towards WWCC. Slash marks (/) indicate a properly formatted, attached ICS-213 form, when applicable. Question marks (?) indicate a problem with the ICS-213 form (usually either an outdated template or incorrect message format). Contact me directly if you want help in correcting your ICS-213 submission.

WINLINK WEDNESDAY CHECK-INS, 7 August 2024 (Episode #413)

Total unique participants = 699

\*\*\*\*\*  
THE FOLLOWING IS THE NET CHECK-IN LIST AS RECEIVED  
\*\*\*\*\*

KN4LQN, David, Chesterfield, VA (HF) (Net Control)
