

## Winlink Wednesday Net Report and Roster for 1 December 2021 (Episode #273)

# Winlink Wednesday

Greetings,

Our next net will be held on Wednesday, 8 December 2021. I will distribute a reminder on Tuesday. Please read it carefully. KN4LQN WILL BE PRIMARY NET CONTROL.

The current week's net report and roster is now available at:

<https://winlinkwednesday.net>

The interactive map of the current week's participants is available at:

<https://tinyurl.com/WWcurrentmap> (also linked at <https://winlinkwednesday.net>)

### SUBNET RESULTS:

Winlink Wednesday Local VHF P2P Subnet results:

- Blue Ridge (NCS: Wayne, KM4YC, Fauquier County): 11 participants, including NCS.
- Central VA (NCS: Dave, W4IIA [as W4IIA-2], Henrico County): 12 participants, including NCS.
- Hampton Roads (NCS: Frank, KN4DUF, Virginia Beach City): 10 participants, including NCS.

Winlink Wednesday PACTOR P2P Subnet results:

- Statewide (NCS: Randy, KE4RL, Wythe County): xx participants, NOT including NCS.

If you would like to participate in any of these subnets, contact the NCS directly. If you would like to host a Winlink Wednesday VHF P2P Subnet in your area, contact me for details on how to get started.

### NET NOTES:

- 1.) Yesterday, Winlink Wednesday received 469 total messages (new record!) from 352 unique participants worldwide, including 157 Virginia stations.
- 2.) There were 49 P2P connections during the morning session (including those to Alternate NCSs), and 57 P2P connections during the evening session.
- 3.) **Ralph (N4RLI) and David (KG4GIY) earned their Winlink Wednesday Century Club (WWCC) certificates this week, signifying 100 weeks of participation.** They will be issued WWCC certificates #103 and #104, respectively. Congratulations to Ralph and David on this milestone achievement!
- 4.) There were EIGHT new stations. **Welcome to Archie (YV5NBB), Lou (N3VNO), David (KO4PZW), Tom (W4WXA), Manuel (WP3MM), Doug (KE8JNH), Gary (K4GRK), and Stephen (KD2JJY).**
- 5.) Two messages were rejected as check-ins because they were early, late, included misspelled call signs, or included an attachment of some sort. If your check-in is not shown in the check-in list or on this week's map, yours might be one of the messages that were rejected for not following instructions. See: <https://winlinkwednesday.net/wwchanges10.html>
- 6.) P2P check-ins are identified below by a leading asterisk (\*). Lowercase "o" (o) indicates a check-in from outside of Virginia. Square brackets [xxx] indicate notes by net control. Circumflex (^) indicates a check-in using

Telnet, which does not count towards WWCC. Slash marks (/) indicate a properly formatted, attached ICS-213 form, when applicable. Question marks (?) indicate a problem with the ICS-213 form (usually either an outdated template or incorrect message format). Contact me directly if you want help in correcting your ICS-213 submission.

WINLINK WEDNESDAY CHECK-INS, 1 December 2021 (Episode #273)

Total unique participants = 352

\*\*\*\*\*  
THE FOLLOWING IS THE NET CHECK-IN LIST AS RECEIVED  
\*\*\*\*\*

KN4LQN, David, Chesterfield, VA (HF) (Net Control)  
0025L, clear, calm, 38dF

o VE3YTP, Andrew, Etobicoke, City of Toronto, ON (VHF)
